- See fig.3., we simply created a rolled hem on both sides of the panels by rolling the fabric edge 1/4" onto the wrong side of the fabric, and press; roll again 1/4" and press. Stitch.
- Repeat for along the hemline.
- Using the bias binding, bind the neckline and the two open sides of the bodice as shown in fig.5. Pin the binding right sides facing onto the edge as shown, and stitch. Press the seam allowance upward onto the binding as shown in fig.6; and roll the raw edge of the binding 1/4" onto the wrong side of the binding as shown - press.
- Roll the binding over the seam allowance enclosing raw edges. See fig.7. Stitch. Press.
- Refer to fig.8 - at the sides of the bodice, overlap the bottom edge 1" as shown. Begin pinning the waist panel in place as shown in fig.9. right sides facing. Adjust the cross over of each side so the bodice fits the top edge of the waist panel. Stitch the waist panel onto the bodice as shown.
- Mark the center of the back panel along the raw top edge, and mark the center back point of the waist panel. Pin the skirt panel onto the waist panel, right sides facing - continue to pin the panel in place which will wrap around the side edges of the tunic slightly. Stitch the back skirt in place. Press.
