

諧音

Asian Fusion is another exciting collection in our Fashion Line. This collection is full of Asian influenced designs with dragons, lotus flowers, lanterns, elegant birds, applique fans and butterflies. We created a beautiful velour jacket, shirt and even embellished shoes and a hat with these intricate designs. Just think of the possibilities using metallic threads and Asian theme fabrics for applique. We hope you enjoy this collection as much as we have in creating these projects. You may even go as far as using chopsticks after you embroider your first project!
