You will need

scissors, paste, a used ballpoint pen (tracing along the fold lines makes them easier to fold)

Caution: Glue, scissors, and other tools may be dangerous to young children so be sure to keep them out of the reach of young children.

1 Cut out the parts and fold them along the fold lines on each.

2 Glue the front and back of the house together.

3 Attach the bigger half of part A to the back of the door. Next, attach the bigger half of part B to the smaller half of part A, and finally attach the smaller half of part B to part C, aligning with the parts' shapes, and fold them up.

4 Attach 3 to 2, and you're done!
