## Stitch Tutorial

### French knot – Point de nœud:

Bring the needle out on the right side of the fabric and twist the cotton 3 times around the needle. Put the needle through the fabric close to the previous hole, but not actually through it so that the knot does not get dragged through to the wrong side of the fabric. To get a neat knot, use your left thumb to keep the cotton near the knot nice and tight against the fabric while you thread the needle and the cotton through the knot. That'll prevent the knot from coming loose.

### (Diamond) Eyelet Stitch – Point d'œillet (en losange):

Bring your needle out in the centre of the diamond shape, then work your stitches from the centre outwards, clockwise.

### Leaf stitch – Point de feuille:

Start with the 2 stitches that make the bottom leaf. Then work the 2 outer stitches of the top leaf. Save the vertical stitch for the end, to ensure a neat finish.

### Tied Oblong stitch – Point de croix allongé avec pique:

Start with the first diagonal stitch as you would a normal cross-stitch (except the stitch is longer, of course). Then stitch the other diagonal stitch, still as you would a normal cross-stitch. Bring your needle back to the right side of the fabric, on the right hand side of the stitch, at mid-height. Stitch a backstitch across the oblong stitch you had just done, so as to secure the long cross into place.
