Software akuntansi gratis memang sangat banyak tersedia di Internet, namun hanya sedikit yang mempunyai fitur mumpuni. Apalagi banyak juga software yang belum berjalan dengan sempurna. Sehingga Sahabat UKM sebaiknya berhati-hati dalam memilih Software keuangan yang tepat. Inventoria Professional Stock Control is exactly what it says it is. The software squarely aimed at professionals who need a stock management software for the Windows platform that allows them to manage inventory in one or several locations with minimum hassle and maximum results. While inventory can be tracked in Excel, spreadsheets only work for periodic inventory systems (i.e., inventory systems that are updated at intervals, say after stock takes). Inventory management software is necessary to enable a true perpetual inventory system, where stock levels are updated continuously as sales are made and goods are received.
