Vopium is a mobile VoIP service that offers cheap international calls through GSM and VoIP, without necessarily having a data plan (GPRS, 3G, etc.) or Wi-Fi connection. If you do have any of the latter, you can make free calls to other users using the same networks. Bandwidth is sacred and Voip is extremely piggish of it. Verizon is making every effort to get 4gLTE right and also get OTA sync of Contacts and Calendar working correctly. This latter effort has turned into a nightmare, but they will get it right. 8/23/ · Tweet Share Post If there was one app I've desperately wanted on my T-Mobile BlackBerry Bold (s rimm), it was a good mobile VoIP client that allows me to make and receive calls over Wi-Fi and 3G connections. It would be even better if that client was made by . 8/2/ · Voip developers stay away from the cdma environment as it is not good for voip stuff whereas gsm is the ideal system for voip.
