BIMcloud. · With virtual machine (VM) software like Parallels Desktop you should be able to install older version of OSx and run ArchiCAD 16 in that. Or if you have a bootable installer for the older OSx, you can try installing it that way, but not sure if it will support your new MAC hardware that way. I don't think you can boot up older OSx installer. (In most of the cases when you install Java version 7 () the old Java version will be kept, so you only need to remove Java 7 in order to make the GRAPHISOFT installer work.)
