Hot tub cracks in shell repair

**CLICK HERE TO DOWNLOAD** 

The acrylic shell of the hot tub must not be exposed to sunlight when it's not in use (whether it's full or empty). The heat can influence the expansion and contraction of the surface, weakening the surface and increasing the likelihood of cracks. Always keep the tub covered when it's not in use. Objects in the Tub. Aug 16, · Seal it good, but realize this is just for troubleshooting and not a fix. Fill the tub and see if she still leaks. Now, if this tub is not fiberglass-backed, then the crack is most likely leaking. I would put an epoxy fiberglass patch on the back, and then use and acrylic surface patch on the inside to seal it up. To repair a shell in this manner may take a couple of attempts, including draining, drying, and refilling the spa to test for watertight integrity. But in the end, it's still a lot cheaper than replacing the entire spa, which is usually the only other solution to the problem. How to Repair Hot Tub Scratches and Cracks. Even a minor scratch or crack on your new hot tub is a bummer. Luckily, there is plenty that can be done to restore your hot tub to good-as-new! We're going to walk you through the decision process and how to fix each damaged area. Sep 16, How to repair a crack in your Lumi-O Spa-Ô or InnovaSpa Urbania spa yourself.
