35) (2sc, 1dec)*6, (18) slst

*** Let's fill the head tightly with fiber. Let's fill the fiber by trying to make the cheeks more prominent.

FACE SHAPING

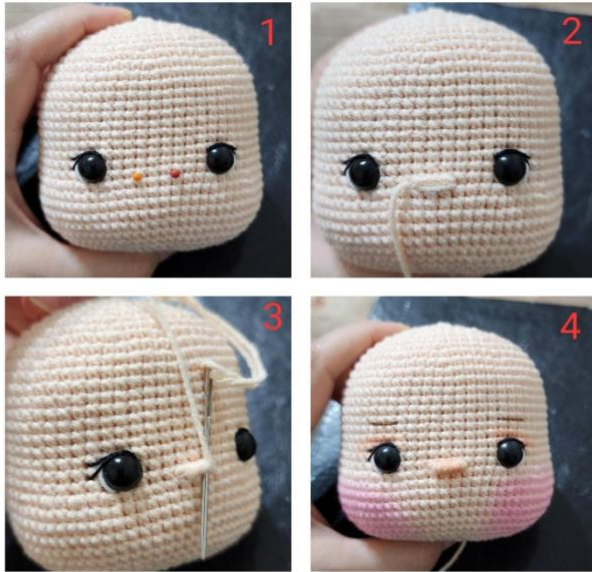

*** Let's embroider eye, eyebrow and nose by looking at the pictures.

Eyes:

@fatoscaorguler

Nose:

EARS:

Go back 7sc from one lower level of the eye. Attach the yarn on the 8th stitch, crochet in the same stitch [1sc, 5hdc, 1sc] (hide the yarns)

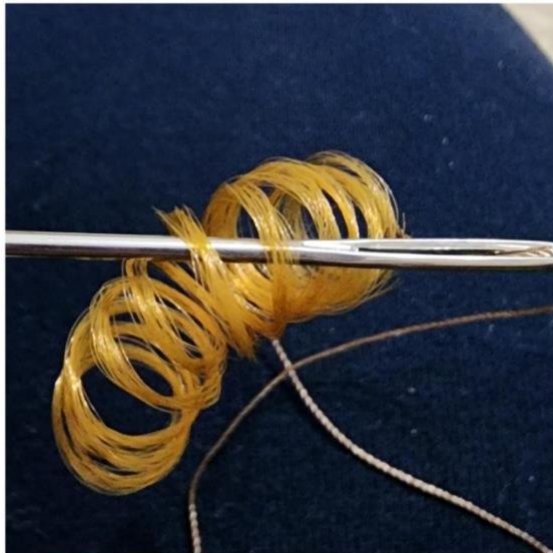

HAIR:

- With the help of a pencil, let's determine the place where you will plant the hair. From 14 rounds above the eye, you'll sew the hair so that it is gathered to both sides.

- Let's cut 6-7 cm long pieces from the tube hair with its curly form. Let's attach the strong yarn suitable for the hair colour to the needle.
- Let's sew 3 pieces of hair into each stitch along the lines you have drawn.

[@fatoscaorguler](#)

- Let's completely sew the hair to one side of the area you drew at first and finish it. The middle sections will remain blank. When the sewing process is completely finished, let's fix the hair by pulling it lightly. Then, with the help of a rubber band, let's collect the hair on the top. Let's do the same thing for the other direction.

♥ Note:

- The same method was used for the baby in the photo.
- As a difference, the baby's hair in the photo was gathered with a rubber buckle at a single point.

ARM:

*** fill the fiber lightly.

*** Let's make the leg filling every 5-6 rounds, tightly. I recommend crocheting both legs at the same time so that they are symmetrical..
