NOTE AND RECOMMENDATIONS

- You can crochet from any yarn and a suitable hook for it.
- The size of the toy depends on your yarn, the hook number and the crochet density, as well as the crochet method.
- When crocheting with ticks (yarn over), the toy will turn out more than if you crochet with crosses (yarn under).
- To carefully pull the hole, grab only the front loops.
- All parts are crocheted in a spiral, unless otherwise specified. Use a marker or contrast thread to avoid losing the beginning of the row.
- All parts are stuffed in during the crocheting process, unless otherwise specified.
- At the end of each row in (...) the total number of loops or the number of rows is specified.
- Wire. I use copper wire in a braid. For safety and insulation, I use a adhesive tape. Also you can use:

- wire for beads, in several additions.
- floral wire.
- electrical cables, sold in a hardware store.
- aluminum wire or galvanized steel wire.
- chenille wire.

If you use a wire without a braid, I recommend isolating it.

- Recommendations for changing colors.

These photos show how I change the color of the thread. You can do this in any way convenient for you.

Grate dry pastels into powder and use a brush to tone the cheeks.
Tinting is better done in natural light.

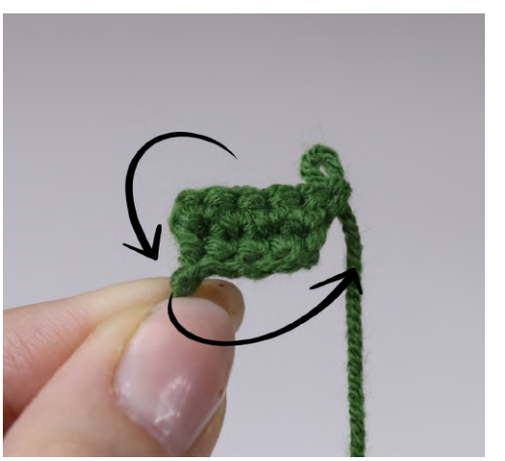
3 sc in 1 st, 2 sc, 3 sc in 1 st,
on the 2nd side sc, 3 sc in 1 st,
on the 3rd side 2 sc, 3 sc in 1 st,
on the 4th side sc, slst



Fasten and trim the thread, leaving the end for sewing. The second patch is crocheted similarly.

To embroider snowflakes on the hat with a thin white thread, I embroidered 3 pcs. Sew the patches to one another. These are just my recommendations, you can place patches and snowflakes in the way you like best.

With a thin black thread on the patches, make an imitation of seams.

Fasten and trim the thread, hide the end.

Next, crochet in black, the upper part
of the lantern. The detail is crocheted separately.

1rnd- 4 sc in MR
2rnd- (sc, inc)*2 (6)
3rnd- 6 sc
4rnd- (sc, inc)*3 (9)
5rnd- (2 sc, inc)*3 (12)
6-7rnds- 12 sc (2 rnds)
8rnd- *FLO* (sc, inc)*6 (18)
Fasten and trim the thread, leaving the end for sewing.
Sew both parts together, add stuffing material in the process.
When stitching, we grab both loops of the main part and the back loops of the 7 round of the upper part.
Decorate the lantern with a thin black thread.
Make and sew a loop. To do this, crochet a ch 10-11.
The number of stitches in the chain depends on the density of your crochet, in order not to make a mistake, try on the loop on the arm of the snowman. The lantern should be easy to put on, but without falling off the arm.
